

January Update on Yachats Ridge

Oregon Parks Recreation Department (OPRD) Commission was duly impressed at their November meeting in Newport with the outpouring of community and county-wide support for Yachats Ridge as a future state park.

The Oregon Parks and Recreation Department (OPRD)'s Land Unit is continuing to perform its due diligence on considering the 950+ acres. The OPRD Commission will be informed of their staff's progress at their February meeting. That information will be conveyed in the Executive Session.

There are many necessary steps to take when a public agency or a nonprofit works on property acquisition. Patience and ongoing support are important to make Yachats Ridge eventually an Oregon State Park!

On behalf of View the Future, we thank you for your support.
